

CaaS // Module 01:

STATUS // SIGNAL ENGINE READY

Media Architect

Authority Generation & Signal Extraction

Turning Media Signals into Strategic Intelligence

Kevin Barnes
AI Systems Architect
BARNAI Systems

Signal Chaos Is Usually Misdiagnosed

Media teams face overwhelming data and slow manual analysis

Overwhelming volume & velocity of news, social & blogs

Raw monitoring counts mentions, producing
noise

Manual analysis is reactive and slow

Lack of context and narrative insight

Delayed crisis detection & missed opportunities

The Intelligence Engine

Signal Intelligence Architecture

Institutional Architecture

Authority Workflow

Executive Diagnostic

Narrative Stability

78%

Risk Level:

Low

Classification:

Stable Narrative

Recommended Deployment:

Executive Briefing

Operational Summary

Strong signal quality with moderate trend acceleration.

Executive Outputs

The pipeline produces outputs tailored for every decision maker:

- Executive briefings summarise narratives and sentiment
- Crisis alerts prioritise emerging risks
- Trend reports and social pulses track momentum
- Stakeholder insights tailor messaging to audiences
